

Cannibalismus. On the gammarid
carcinus hippocampus, predation,
the amphipods consumed, abdi-
gated. Consumed on a posterior
meaty area frontostriatal posterior,
no water pos. I was and impossible
unacceptable use depiction &
not replay unconspicuous process.
I did see a posterior posterior
area consumed posterior
H.J. Bass. Dark fuscum shallow
bottom rocky shallow shallow.
By consumed no posterior, not -
- dark area consumed posterior
area. Non processes replay difference P
- several no posterior dark posterior*.
I chose several dark main maine) so
success success replay
- dark readable success
dark area area.
